

Amendments to the Drawings

Substitute drawings for Figs. 10-12 are submitted herewith. The only substantive change is the addition of the reference numeral —48— to Figs. 11 and 12.

REMARKS / AGRUMENT

Claims 1-9, 15-21 and 27 considered in the prior co-pending application that were directed to a separate invention pursuant to a Restriction Requirment have been deleted for the purpose of calculating the initial filing fee. Claims 10-14 have been canceled and replaced by new claims 28-36, which are also believed to be drawn to apparatus for manufacturing dentures to which the non-elected claims in the parent application were directed.

The specification has been amended to refer to the prior co-pending application. Minor changes to the Specification and Drawings have also been made in view of objections noted in the prior co-pending patent application.
